Bah, Uttar Pradesh, 283104, India | 8433478048

Highly motivated Computer Science graduate (2022) with hands-on experience in full-stack web development. Successfully developed a Recruitment Management System and an Online Shopping System, demonstrating proficiency in Java, HTML, CSS, and JavaScript. Possessing strong analytical and problem-solving skills, I am eager to apply my technical expertise to contribute to innovative software solutions in a dynamic team environment.

Work Experience

ONLINE SHOPPING SYSTEM

Jan 2022 - Apr 2022

Developed RECRUITMENT MANAGEMENT SYSTEM RMS to streamline hiring. Consolidated job postings, applicant tracking, analytics, and communication tools. Built using HTML, CSS, JavaScript, SQL, and PHP.

- Tech Stack - HTML, CSS, JavaScript, SQL, PHP

RECRUITMENT MANAGEMENT SYSTEM

Mar 2021 - Jun 2021

Developed a web-based Online Shopping System (Jan-Apr '22) integrating an existing physical store. Utilized Java, HTML, CSS, JavaScript, and MySQL to create a user-friendly platform. Implemented inventory management, secure authentication, and robust testing for optimal performance and customer satisfaction.

- Tech Stack - HTML, CSS, JAVA, MySQL

Core Skills

HTML, CSS, JavaScript, Java, GIT, OOPS, BootStrap, MySQL
